

Make a Salmon Life Cycle Plate

Credit: IASD, Fall Fish Camp

Grade Level: Preschool to Grade 2

Overview:

Students will be able to organize the stages of the salmon life cycle in order, and recognize the cyclical nature of the life cycle.

Materials:

- Plain paper plate
- Crayons, pencil crayons or felt markers
- Scissors
- Glue stick
- Salmon life cycle colouring page (on next page)

Steps:

- Have each student colour each of the life cycle drawings, using crayons, pencil crayons or felt markers
- Cut out each life cycle stage
- Glue each stage around the paper plate in the appropriate life cycle order
- Label the plate
